

## MANUFACTURER'S OPTIONS FOR THE VAN'S KITPLANES

With the exception of mods/parts listed below, optional equipment listed in the 2004 Van's accessories catalogue can be considered approved by LAA Engineering, provided it is installed per Van's instructions and is fitted to an aircraft type for which the mod was intended. This would need to be confirmed by a LAA inspector.

<b>No.</b>	<b>Description</b>	<b>Comment / Action Required to remove from this list</b>
