

# Mission, Vision, Goals and Values

**MISSION** To be the UK's premier recreational aviation Association

**VISION** The National Association in promoting safe and economical operation of recreational aircraft through excellence in:

- the promotion of amateur construction.
- protecting and enhancing flying rights and ownership.
- supporting the preservation and operation of vintage aircraft.
- aviation engineering support.
- pursuit and discharge of regulatory duties.
- encouragement and training of recreational pilot skills.
- promotion of opportunities to experience aviation.

**GOALS**

- Excellent safety record in recreational aircraft and in the operation of the Association.
- Leadership in the achievement of low cost flying through co-operation and partnership with like-minded bodies, and appropriate representation at all levels.
- Growth of membership and flying activities served by the Association.
- A LAA controlled training and review programme designed to achieve safe flying of Permit Aircraft.
- Predominantly lead by Struts, an active programme of aviation events, including Vintage and Classic and young people's aviation experience.
- Increasing numbers of relevant new type recreational aircraft available.

**VALUES**

- Promotion of Safety in all aspects of the Association's activities.
- Relentless pursuit of economical recreational flying without undue regulation or restriction.
- Dedicated, constructive and trustworthy working, respecting the opinions and values of each other.
- Operate in all relationships with the highest ethical and business standards.
- Have fun in all we do.
